1. Extended Days can only be used for designated positions.
2. If a position is not filled or is traded for another position, the extended days are forfeited.
3. The extended days cannot be used for an instructional assistant filling a certified position.
4. Employees working a 1/2 of a position will get 1/2 of the extended days.
5. A full-time employee working at multiple schools will receive a pro-rata portion of the extended days from each school based on the amount of working time with each school, not to exceed the number of days listed above for that position.
6. Employees do not have the option of being paid for their extended days in a lump sum. Extended days will be added to the employees normal contracted days and averaged in with their regular pay.
