

Parents/Guardians

All medically-related paperwork required in legislation and regulation, including updated immunization forms, physicals, vision exams, and dental screens, must be turned into your child's schools prior to the first day of school. This includes students who are attending under the hybrid system **and** those that have opted for all virtual learning.

If your child has a chronic medical condition that may require emergency rescue medication at school (Type 1 diabetes, epilepsy, severe allergies, asthma), please complete the appropriate required Individualized Health Plan packet and submit to the school nurse at your child's school prior to the first day of school.

All packets, as well as Medication Authorization forms, are available on the Campbell County School's web page (www.campbell.kyschools.us > *Departments > Health Services*).

Please contact your child's school nurse if you have questions or concerns.

Thank you.
